Notes:	Individual lessons, small group lessons, conferences for students and parents will take place throughout the week, the lead teacher will provide the schedule to parents and students. These will take place during the work cycle blocks. The schedule is created and maintained by the lead teacher. Assistant Teachers will be assisting with research groups and providing check ins as well during the work cycle. This mirrors what takes place during a regular Montessori work week. Aidan Montessori will be adopting an educational platform to manage these classrooms such as SeeSaw. We have not finalized the decision on which educational platform will work for our community at this time. This schedule is subject to change.
