

Sparkle & Shimmer Playdough

What You Need:

- ½ cup of plain flour
- ½ cup of water
- 2 tbsp of salt
- 1 tbsp of cream of tartar
- 2-3 drops of food dye
- Extra loose glitter
- Parchment Paper

Instructions:

1. In a saucepan (preferably nonstick) on low heat, mix the first four ingredients together so the mixture is almost smooth. It is fine if a few little lumps still remain since that should dissipate overtime with constant stirring. Gradually begin to add the food dye and stir until the dye is mixed entirely. If the desired colored is not achieved continue to add more food dye. Now stir in as much glitter as you would like. More is better when it comes to glitter!
2. Next on low heat, continue to constantly stir until the mixture starts to thicken. You will know when the mixture is thickening as the sides start to pull away from the sides of the saucepan and form a lump. This entire process takes about 5 minutes total.
3. Completely remove contents from the heat and place the playdough on some parchment paper. Let it slightly cool and then knead until it is smooth and soft.
4. After it's completely cool, wrap the dough in the parchment paper and store in a resealable bag. Your sparkly dough should last for months if properly stored!
